

Advanced Programming Method Laboratories **GRADING & RULES**

Grading

Laboratory activity final grade is 45% of the final grade

- there will be 7 Lab Assignments
- each assignment will have a given **strict** deadline
- each assignment has the same weight

Laboratory Rules

- **You can change your subgroup for the lab only once at the first lab. You have to announce the lab teacher about this. After the first lab you cannot change your subgroup lab time.**

Laboratory Rules

- you have to present each lab assignment at its deadline
- for each lab assignment you will get a grade between 1 to 10
- the deadline for each lab assignment is clearly specified in the assignment text file
- if you delay an assignment 1 week you can get maximum 7 on that assignment
- if you delay an assignment more than 1 week you will automatically get the grade 0 for it and you cannot submit it anymore
- the final grade for the lab activity is the arithmetic average of the lab assignments grades

Laboratory Rules

- you will get the lab assignments at the course
- the lab assignments are discussed at the seminar
- you have to present the lab assignments to the lab professor at or before the given deadline
- all of you will get the same lab assignments
- you can discuss with your colleagues about the assignments but you are not allow to copy the implementation
- **My colleagues and I will be very strict with any attempt to copy the lab assignments**
- you have to implement all the assignments since the problems of the final practical exam are extensions of the lab assignments

Laboratory Rules

- the lab assignments mainly consist of a big project to implement an interpreter (virtual machine) of an imperative concurrent toy language
- at each lab assignment (almost each week) you will add the rules and the data structures required to execute one or more new instructions of the toy language
- the toy language interpreter will be implemented in Java
- a schedule of the lab assignments (periodically updated) can be found at [LabAssignmentsSchedule.pdf](#)

Rules to enter into the Final Exam

The first condition to get into the final exam is to attend minimum 90% of the labs and minimum 70% of the seminars. That means you must attend minimum 10 seminars and minimum 12 laboratories. Please read the following document:

<http://www.cs.ubbcluj.ro/wp-content/uploads/Hotarare-CDI-15.03.2017.pdf>

- Holydays and 27 September are considered by default attended

The second condition to get into the final exam is to get minimum grade 5 at the lab activity.

Rules for the Students from previous years (“Restantieri”)

- the students must attend the labs and the seminars, must do the lab assignments, and must pass the final exam
